EXPERIENCE

Empiric Technology

July 2025 - November 2025

Worked as a MERN + .NET Developer at Empiric Technology, contributing to two expense systems and a clock-in/clock-out application from initial version to core feature implementation. Managed Azure resources, deployments in an agile environment.

10pearls Shine Program

December 2025 - January 2025

Interned as a MERN Stack Developer at 10 Pearls (Shine Program), developing full-stack web applications under senior engineers' supervision. Contributed to feature implementation across frontend and backend in a collaborative, agile environment, gaining hands-on experience with real-world development workflows and best practices.

TECHNICAL SKILLS

- **Programming Languages** - Python, JavaScript
 - **Front-End** - HTML5, CSS3, TypeScript, React JS, Redux JS, Tailwind CSS, GSAP
 - **Back-End** - Node JS, Express JS, mongoose
 - **Databases** - MongoDB, MySQL, Redis, PostgreSQL, SQL Server, Elastic Search
 - **Additional** - Git, Linux, Docker, GraphQL (Apollo Server and Express)
-

PROJECTS

GitForge - A GitHub profile builder with drag-and-drop customization and instant preview.

TechStack - React, Vite, Markdown, HTML, CSS

- Developed a responsive web application to create professional GitHub READMEs through modular profile sections.
- Integrated live Markdown + HTML preview and export functionality.
- Designed a drag-and-drop UI to let users customize layout and content with ease.

NED Scholars — A student-society website for sharing resources, events, and opportunities

Tech Stack: Next.js, React, Node.js, Neon DB, Prisma, Tailwind CSS, Shadcn UI, Resend

- Built a responsive website to centralize society announcements, scholarships, and event updates and implemented dynamic content sections for easy updates by the team.
- Added role-based access to manage posts and resources securely.
- Deployed and maintained the site to ensure reliability and continuous availability.

EduSchedule - University Resource Allocator

TechStack - ReactJS, Flask, PostgreSQL, NeonDB

Built a web app to manage university resources like class schedules and faculty assignments. Used Flask APIs with a PostgreSQL database on NeonDB and a ReactJS frontend for a user-friendly experience.

EDUCATION

Bachelor of Engineering in Computer Information and Systems
CGPA - 3.76 | NED University of Engineering and Technology

Sep 2023 - Present

ADDITIONAL INFORMATION

- **Certifications** : Python Crash Course (**Google**), Responsive Web Design (**FreeCodeCamp**), Career Essentials in Software Development (**Microsoft and LinkedIn**) etc.
- **Language** : Urdu, English
